ABOUT ME

As a skilled **Software Developer**, I excel in **full-stack MERN** development, **front-end and back-end** programming, and optimizing performance with **React.js** and **RESTful APIs**. My experience includes creating dynamic applications like e-commerce platforms and hospital management systems.

EDUCATION

Gautam Buddha Univerity

Bachelor of Computer Science

Greater Noida

Aug.2020 - Jul.2024

Dayawati Modi Public School

XIIth

Modinagar

Jul.2019 - May.2020

TECHNICAL SKILLS

Languages:Java,JavaScript,HTML,CSS

Frameworks: React.js, Node.js, Express.js, Bootstrap, Tailwind CSS

Developer Tools: Git, VS Code, Visual Studio, IntelliJ, Eclipse,Vercel,Netlify,Render

Animations: Greensock Animation (GSAP)

Database Management: MySQL, MongoDB

EXPERIENCE

Software Developer Intern — Satyukt Analytics — Aug 2023 – Jan 2024

- Collaborated with design and backend teams to develop seamless user interfaces for web applications.
- HTML, CSS, JavaScript, and React.js to build responsive, user-friendly front-end components.
- Integrated RESTful APIs to ensure efficient data flow between frontend and backend systems.
- Played a key role in optimizing front-end performance, reducing load times, and enhancing responsiveness.
- At Satyukt Analytics, I've proven to have a remarkable capacity to close the gap between design and functioning.

PROJECTS

Tomato | *Full-Stack MERN Application — JUL 2024 – Present*

[Link]

- * Developed a full-stack MERN application that serves as a dynamic food cart website, enabling customers to browse the menu, add items to their carts, and securely complete transactions using Stripe payment processing integration.
- * Implemented post-payment order tracking to enhance user experience and ensure seamless order management.
- * Integrated robust user authentication mechanisms to safeguard the platform and user data.
- * Designed and developed an admin panel to streamline operations by managing menu items and tracking customer orders.

Hospital Management System | *Full-Stack MERN Application — Feb 2024 – Present*

[Link]

- * Developed a feature-rich Doctor Appointment Booking App using MERN stack (MongoDB, Express, React, Node.js)
- * Implemented user authentication for registration and login, allowing users to access personalized features securely
- * Offered functionalities, including doctor selection, appointment booking,appointment status,appointment notification,profile management, and contact section for queries.
- * An integrated Admin panel for admin enabling control over users,doctors,appointment status and doctors approval

SOFT SKILLS

Problem-Solving: Strong analytical skills to troubleshoot issues and devise effective solutions.

Communication: Clear and effective communication with team members and stakeholders.

Collaboration: Proven ability to work collaboratively within cross-functional teams.

Adaptability: Quick to learn and adapt to new technologies and environments.

Attention to Detail: Meticulous in code quality and user experience design.
